## Basic MRT Training

On-site training consists of four (4) days of instruction provided for participants to learn Moral Reconciliation Therapy–MRT® and the use of MRT with “treatment resistant” clients. It is an intensive training program that uses lecture, discussion, and experiential exercises to explore the dynamics and basic personality traits of clients who are antisocial or who have other personality disorders. Basic outcome research on the effectiveness of treating antisocial clients is presented. In addition, the primary characteristics, evolution, and application of cognitive-behavioral techniques are explained and demonstrated. The cognitive-behavioral method of Moral Reconciliation Therapy is reviewed in detail and attendees also participate in the program’s structured cognitive-behavioral exercises.

Each participant receives approximately 32 hours of training that includes up to four hours of “homework” assigned to trainees in preparation to facilitate MRT groups. MRT-TRAINED ONLY

## How To Escape Your Prison

MRT-TRAINED ONLY

*How to Escape Your Prison* is the primary MRT workbook used for adult offenders and adults in substance abuse treatment. The 152-page workbook is also used in programs for multiple DUI offenders. The workbook addresses issues related to criminal thinking and criminal needs, as well as Substance Abuse.

The book is used with all types of offenders including those in jails, prisons, community corrections, therapeutic communities, halfway houses, parole and probation, and drug/mental health/DUI courts. Numerous substance abuse programs, both residential and outpatient, utilize the workbook. MRT is a SAMHSA NREPP program used for substance abuse and general treatment of criminal populations.

This program consists of 16 steps, with 12 of these typically completed in an average of 30 sessions held in accordance with the implementation site's own needs and characteristics. For example, TC's often hold several MRT groups each week, while drug courts and probation sites typically hold a weekly group.

Clients complete homework for each group prior to coming to a session. In the group each client presents their homework and the facilitator passes the client to the next step or has the client redo the homework, based on objective criteria. All MRT groups are open-ended, meaning that new clients can enter an ongoing group at any time. Each group session will usually have new clients, as well as clients graduating from the program. All MRT facilitators must complete the Basic MRT Training. See the following page for supporting materials.

Available Versions include: Adult, Juvenile, and Spanish.

MRT-TRAINED ONLY

*Winning the Invisible War* is a 134-page MRT-based workbook that specifically addresses the specialized needs of veterans who have been assigned to treatment via the justice system or the VA. This program uses the Steps of MRT as its foundation. MRT is an evidence based cognitive-behavioral program that is designed to systematically address clients' decision making and skill building.

The program is used with Veterans who enter drug courts, family courts, or other specialized veteran treatment courts. Because Veterans have experiences and issues that are unique, it has been recognized that they participate best in treatment programs designed for veterans engaged in the same group process.

This program can be paired with the Veteran's trauma treatment workbook *Battling Shadows*, described below, which directly addresses the trauma issues frequently encountered in Veteran populations.

## Something for Nothing

*Something For Nothing* (17-pages) is a workbook that focuses on shoplifting and is designed to be utilized in 8 group hours. The group meetings can be weekly for parole/probation settings or completed over a weekend. This program directly confronts and exposes the thinking and behaviors underlying shoplifting.

*Something For Nothing* is directly targeted to shoplifters who are placed on probation, diversion programs, or ordered to undergo a shoplifting treatment program. The program is in use in corrections, probation and parole, community corrections, diversion programs, and in private treatment settings.

The program has 6 exercises completed in 8 group hours. In programs that implement the program over weekends, the audio version (on CD) of each exercise in the book is typically played to the group. Then participants complete written material and share their responses with the group. This is done so that everyone in the group completes the program at the same pace. These one or two-day groups are not

open-ended. In weekly groups, clients read each exercise and complete the written material before group and then present their work to the group. Weekly groups can be open-ended meaning that new participants can enter the group at any time. Each participant presents the exercises from the specific one that participant is currently working on.

# Sex Offender Relapse Prevention

## Making Changes for Good

*Making Changes for Good* (56-pages) is a 10-session workbook designed specifically for sex offender relapse prevention.
